## Innovative Financial Technology Providers

Fintech is the common term used to refer to financial technology - which is a new industry that provides financial services with innovative software, cloud, artificial intelligence, and other technology applications. Many of **FinTech companies are revolutionizing the financial services industry**.

As our ongoing FinTech research commitment, we are evaluating and working with the most important FinTech companies as listed by the following sources:

- AdvisorHub Fintech Product Directory
- The Forbes FinTech 50
- <u>CIOReview 50 Most Promising FinTech Solution</u>
  Providers
- FinTech Breakthrough Award Winners
- Built-In Fintech Companies & Startups

- Below is our AFIEA list of financial technology companies. For each of these solution providers, we have had either consulting or working experiences related to research, evaluation, analysis, implementation, and support in recent years.
- We have worked closely with most of these technology vendors on the projects of API integration, competitive analysis, customer requirements, and strategic decision-making.
- The selected financial technology providers is listed below in alphabetical order for easier reference of our core expertise. For questions, please contact us through LinkedIn or eMail.
